

# H<sub>2</sub>G Pure

## Water Purifying Machine

Your needlebeds are a precious asset: **H<sub>2</sub>G Pure** makes the tap water neat and safe so as to pamper them. **H<sub>2</sub>G Pure**, thanks to the reverse osmosis process specially **developed to give excellent cleaning results together with H<sub>2</sub>G machines**, reduces by 90% the concentration of pollutants such as calcium, phosphates, nitrates and heavy metals usually present in water. **H<sub>2</sub>G Pure** minimizes the total fixed residue, ensuring good, light and safe water for cleaning your needlebeds... and more!

NEEDLEBED WASHING MACHINES

## FLAWLESS ALLY

**H2G Pure**, combined with our range of needlebeds and cylinders washing machines, is able to satisfy your thirst for serenity: clean and healthy needlebeds.

## TRANSPARENCY AND RELIABILITY

**H2G Pure** has been designed and developed to integrate perfectly with our needlebeds washing machines: thanks to the excellent quality of the water created, it guarantees the optimal success of the washing and the best performance of our machines.

## A WAVE OF PURITY

Each millimeter of **H2G Pure** has been designed, built and assembled to obtain the purest water that your needlebeds could ever touch: it is able to retain all salts with an average rejection of 90%.
